

CHRIS GOSLOW

on piano

A one-of-a-kind musical treat from an accomplished pianist, showman, and composer .

Picture the benefits:

Additional class and atmosphere Good live music adds its own unique charm and elegance to your event, business, or party. Whether hearing music in the background or listening attentively to a concert, your guests will surely appreciate the presence of a skilled live performer.

A musical program for your occasion From show-stopping energetic flare to soothing background music, a quality musical program can delight and surprise your audience, giving them an experience to remember and something additional to talk about.

Original Music Audiences at live venues appreciate hearing quality original music, which adds a uniqueness to the experience.

Professionalism you can count on You deserve the highest level of professionalism, meaning that the entertainment arrives on time, is prepared, and ready to delight.

Testimonials

"Chris delivered a musical program that included musical theatre, classical, rock, jazz and original works. It was spontaneous and the whole group raved about the event for days."

-Paul Weber, Vice President of Risk Management, Ophthalmic Mutual Insurance Company (San Francisco)

"One of our favorite entertainers! Chris sets a mood that is joyful and uplifting. The show consists of a large variety of selections. Chris also performs beautiful original music."

-Georgi Simeon, Engage Life Director, Atria Valley View (Walnut Creek)

About Chris Goslow

Chris Goslow is a versatile pianist, composer, and recording artist. He has performed hundreds of shows all over the Bay Area for: concerts, recitals, marketing mixers, brunches, happy hours, Holiday parties, fundraisers, festivals, corporate gigs, and graduations. He has an extensive client list and has received glowing praise from managers, activity directors, and audiences alike for his professionalism, likability and showmanship. Music from his debut CD "Waterfall: Original Piano Music" has delighted both live audiences and private listeners.
